Founder tasks for the second pass

Everything Claude needs from you, in the order that unblocks the most. 6 November 2026

Tick each box as you go. The first section matters most: nothing built in the first pass is live until it is done. Reference: *KiqStat CTO review: first pass, full report* (`cto-review-first-pass-2026-11`).

A. Do first (today or tomorrow)

Tick	Task	How	Unlocks
[ ]	Merge `dev` into production and promote the deployment	Merge on GitHub, then in Vercel open the new deployment and choose Promote to Production	Everything built in the first pass: renewal fixes, refund reversal, Traffic page, ask-watch cron, SEO pages, guides
[ ]	After the merge, open `/admin/renewals` and press **Check with Paystack now**	Admin, Renewals	Confirms the 24 October VIP renewal is recorded (item 1.5)
[ ]	Set `INDEXNOW_KEY` in Vercel (Production) and redeploy	Any string of letters, digits and dashes, 8 to 128 characters	Daily push of new pages to Bing, Copilot, ChatGPT search
[ ]	Open `/football/competition/npfl` and `/guides` once, and Admin, Traffic	Browser	I have not seen these pages rendered. Tell me anything that looks wrong

B. Figures and files to send me

Tick	Item	Where to get it	Unlocks
[ ]	**Paystack transactions export, 1 to 31 October**	Paystack dashboard, Transactions, Export (CSV)	Reconciles the revenue statement, gives real fees and decline reasons for failed card payments (2.1, 4.3)
[ ]	**October invoices**: Vercel, Supabase, TheSportsDB, Sendbyte,	Each provider's billing page	Replaces my cost estimates, so the operating result

Tick	Item	Where to get it	Unlocks
	domain		becomes a fact (2.2, 2.4)
[ ]	**Paystack webhook log for the 24 October ₦12,000 charge**	Paystack, Settings, API Keys and Webhooks, then Logs	Names the cause of the missed VIP renewal (1.5)
[ ]	**Anthropic billing figures** for October and November to date	Anthropic Console, Billing, Usage	Reconciles our Ask ledger against the bill and sets the overrun rule (3.3)
[ ]	**Google Analytics 4**: October visitors, sessions, top landing pages	GA4, Reports, Acquisition and Engagement	Finishes the site-visit part of 4.1
[ ]	**Mixpanel**: is the bot filter on?	Mixpanel, Project Settings	Same
[ ]	**Supabase Backups screenshot** (Database, Backups)	Supabase dashboard	Evidence for 1.3

C. Things only you can run

Tick	Task	How	Unlocks
[ ]	Redeploy so `ANTHROPIC_TEST_API_KEY` takes effect	Vercel, redeploy the production deployment	The Ask lab can reach Anthropic
[ ]	Run the five presets at `/admin/ask-lab` and rate each answer	About 40 questions across 5 configurations, costs up to about US$4	I analyse the results and recommend one setting (3.2)
[ ]	Refund the 31 October ₦500 test pass and confirm the receipt and the refund email	Paystack, then check the inbox	Closes 1.4
[ ]	Do a **test restore** from a Supabase backup into a scratch project	Supabase, Database, Backups, Restore	Proves the backup works (1.3)
[ ]	One real partner test: open a partner link in a private window, sign up a test account, pay ₦500, check the commission on the partner page, then refund it	Browser plus Paystack	The first real proof of the referral chain and the new refund reversal (5.4)

D. Decisions

Tick	Decision	My recommendation	Item
[ ]	Allowance versus cap on VIP: a day ends at about 82 questions, not the 100 promised. Raise the day cap, or lower the allowance?	Lower the promise to match the cap unless you want to pay up to about US$0.12 a day per heavy VIP member; Pro already fits	2.5
[ ]	Approve, edit or cut each of the 14 X captions	Cut anything you are not comfortable defending; never soften	4.4
[ ]	Do the X captions meet Nigerian gambling-advertising rules?	I could not check the regulator's wording; confirm before the first post	4.4
[ ]	Commission schedule: 20% of net standard, 25% named, 30% ceiling, no 35%	Approve as drafted	5.2
[ ]	Make pay-once the default option on the Pro and VIP pages	Yes: it sells about three times better per attempt	4.3
[ ]	Keep AI training crawlers blocked until scraper traffic is rate-limited	Yes	4.6
[ ]	Head-to-head pages: list only popular pairs in the sitemap and mark other pairs noindex	Yes: stops a crawl trap and wasted rendering	4.6
[ ]	Name an author (or confirm "the KiqStat team") for the six guide articles, and read them once	Read them: they speak for the product	4.6

E. Access and small confirmations

Tick	Item	Notes
[ ]	Verify `www.kiqstat.app` in **Google Search Console** and **Bing Webmaster Tools**, submit `/sitemap.xml`	About 10 minutes each; give me read access or send the exports (90 days of queries and pages)
[ ]	Confirm which of the 13 October paid	Besides the ₦500 test, are there others?

Tick	Item	Notes
	orders were real customers and which were tests	(2.1)
[ ]	Did the 24 October signup spike (38 signups) match a post or campaign you ran?	Helps me read the traffic data (4.1)
[ ]	Confirm the X profile can carry the bio link and a pinned post; say whether to post from one account or also a personal one	4.4
[ ]	Send the 9-slide carousel images and the week's fixtures you want posted about	4.4 (P6)
[ ]	Confirm Flutterwave is used for partner customers	If yes, I will add the refund reversal for it too (5.4)

F. Outside parties

Tick	Item	Owner
[ ]	Recover the founder's questionnaire answers for the Partner Agreement V2	You (5.1)
[ ]	Legal and tax: tax on commissions, partner status, limits on what a partner may say about returns, termination rights	You with your legal adviser (5.3)

G. Dates to keep in mind

Date	What happens	What I do
7 November	The ₦500 VIP trial ends	Nothing yet
8 November	The ₦500 pass upgrade check; the two Pro card plans renew	I count who upgraded and watch the first live renewal
When the X posts go out	48-hour and 7-day reviews	I run the review query and report (4.5)
First partner payment	Referral chain proven with money	I confirm the commission and its 14-day hold (5.4)

H. What happens when you send these

1. **Revenue and costs:** I redo the revenue statement against the Paystack export and the invoices, finish the operating profit, and close 2.1, 2.2 and 2.4.
2. **AI:** I analyse the lab results, recommend a setting, reconcile the ledger with Anthropic's bill, and implement your 2.5 decision.
3. **Growth:** I finish 4.1 with GA4 and Mixpanel, run the first campaign review, and start the Search Console work from the SEO plan.
4. **Partners:** I update the agreement draft with your approved commission schedule once 5.1 and 5.3 are done.
5. I update the Claude Doc and send a second-pass report as Word and PDF, as before.
